

IMPORTANT NOTICE FOR ANY PLUMBING AND DRAINAGE WORK

1. **Site Plan** must show **ALL existing** and **proposed** plumbing and drainage, including Stormwater.
2.
 - **Floor Plan** must show all plumbing work, both existing and proposed, to a scale of 1:100 or 1:50.
 - Proposed Plumbing and Drainage must show pipe sizes, gulley traps and terminal vents.
 - A schematic diagram of all plumbing is required for projects of more than one storey.
 - Specifications are required for details of fittings, HWC, shower base etc.
3. **Written details** must explain exactly what is being done.
4. When the above information is not shown on the plan, **Consent approval** may be delayed until it is provided.
