

9. Strategy Monitoring and Review

The Cycling Strategy is intended to have a full review after three years that is synchronised with the review of the Long Term Council Community Plan.

An interim review is proposed after the first 12-month establishment phase to:

- Refine the governance and working group roles
- Refine the partnership arrangements between agencies
- Ensure the most appropriate unit within Council has the role in driving the strategy actions internally and managing Council relationships with partner organisations.
